Freund, of Germany, and translated by Riddle. The classical degree of each word is indicated by a figure; for example, a word without a figure is fully classical and Ciceronian; with the figures 1, 2, and 3, words are classical only in the first, second, &c., degrees; and this distinction the student perceives at a glance. They occupy a middle ground between the hasty, disjointed, and necessarily imperfect records of the newspapers, and the elaborate and ponderous treaties to be furnished by the historian at a future day.
